ACADEMIC DETAILS

B Tech (Computer Science & Engineering)	2022-2026	MMMUT, Gorakhpur	8.25/10.0
Class XII (UP)	2021	B.N.S.D. Shiksha Niketan, Kanpur	79%
Class X (UP)	2019	M.D.B.L. Inter College, Kanpur	91.33%

INTERNSHIP/EXPERIENCE

AI/ML Intern **Avyan AI** *July 2025-Cuurent*

Working on real-world Ai solutions like Building end-to-end AI pipelines for applied use-cases and optimizing model performance for production scenarios.

- **Teck Stack:** LLMS, RAG, fine-tuning, agentic AI frameworks, OCR, OpenCV, and transformers.

Project Associate **Department of Science & Technology, Government of India** *April 2025-Current*

- Working on EdTech platform improvements using AI/ML concepts.
- Building a **Multilingual Teaching Assistant** for curriculum support, lecture planning, evaluation, and assessment in resource-constrained educational environment.
- **Teck Stack:** MERN Stack, LangChain, Sarvam, RAG, LLM.

Training Program **IFACET, IIT Kanpur** *July 2024-August 2024*

- The internship and project work entitled **File Sharing App** (major), **Photo-Social Mern** (minor), designed as Full Stack Web Development.
- **Tech Stack:** Tailwind CSS**,** MongoDB, ExpressJS, React, Node.js.

PROJECTS

EduSarathi *April 2025-Current*

- **Project Link:** link
- An enhanced teaching assistant platform which helps teachers for improving efficiency in terms of repetitive tasks.

MMMUTHelpDesk *July 2025*

- **Project Link:** link
- AI chatbot for university-related queries using **RAG & LLM**, integrated with real-time student support data.

AyurvaBot *November 2024 – January 2025*

- **Project Link:** link
- A RAG + LLM-based chatbot for traditional wellness remedies.
- **Tech Stack:** Python, Scikit-learn, NLTK, Pandas, NumPy, Matplotlib, Seaborn, Gradio

ACHIEVEMENTS

- Finalist in Serve-Smart Hackathon, IIT BHU (2024-25) from 1200+ entries.
- Solved 100+ DSA problems, building problem solving skills.
- Achieved Code Chef rating of 1417, showcasing problem-solving skills and a strong foundation in Data Structures.
- Qualified for NTSE Stage-II (National Talent Search Examination), conducted by NCERT – 2019.

SKILLS

Technical: Python, C, C++, JavaScript, SQL. HTML, CSS, Bootstrap, Express.js, React.js, Node.js, Fine-Tuning, RAG, LLM.

Curriculum: Accenture Nordics - Software Engineering Job Simulation Mastering Data, Winter School on Artificial Intelligence - Machine Learning & Learning Technologies, DST

Certificates: Online Line Summer Training Program, IIT Kanpur | Mastering Data Structure & Algorithms using C and C++, Udemy | Winter School on Artificial intelligence - Machine learning & learning technologies, Rajiv Gandhi University

Interests:

- ML, DL, NLP, Big Data, RAG, Data Science, Neural Network.
- Passionate about building AI-based educational tools, integrating multilingual support and intelligent content generation.

POSITION OF RESPONSIBILITY

- Lead Student Coordinator & **Founder** — **AI Spark Society**
- **Member** Project Team, Serve-Smart Hackathon, IIT BHU
- **Leader:** Elected as Mess Secretary, where I led and coordinated daily operations for a diverse group of members, honed my leadership and people-management skills, and successfully mediated conflicts to maintain a harmonious community.

EXTRACURRICULAR

- Presented an innovative and cost-effective content generation idea for school students' board exams at RGU's Winter School.
- Participated in national-level hackathons and AI workshops; actively involved in university tech clubs and coding communities.
- Regular attendee and contributor to tech webinars, coding bootcamps, and open-source sprints.
